

FLIGHTS FROM THE UK TO JAMAICA ON HOLD FOR 2 WEEKS

Dear Valued Partners,

In light of the fluid situation in the UK and the new strain of the virus which has been detected, the Government of Jamaica has announced that flights from the UK to Jamaica will be halted between the period 2020 December 21 to 2021 January 4. We recognize that some flights are already en route to the island and as such, airlines expected to arrive or depart up to midnight on December 22 will be facilitated. Three such flights will be impacted.

All passengers on the flights will have to undergo a minimum 48-hour quarantine in a government facility, and will also be required to do a PCR Test. Persons who test negative will be fitted with armbands and allowed to complete their 14-day quarantine at home or in their hotels. Persons who test positive will be isolated in a government facility until recovered.

Persons who travel from a third country via the UK will be required to follow all the procedures.

Reminders:

- All persons intending to travel to Jamaica must apply for and obtain approval for a Travel Authorization before arrival in Jamaica. Apply online at www.visitjamaica.com
- While Jamaica maintains nightly limitations on movement, airport transfers within the restricted hours will not be affected. If stopped, visitors may be asked to show their flight details.
- An "unfit to fly" notice will be issued to the airlines for persons who test positive while in Jamaica. Persons will be allowed to leave Jamaica using medical evacuation or private flights.
- For more information on entry protocols for Jamaica, please see our list of Frequently Asked Questions [here](#).
